## DETAILED ACTION

### *Allowable Subject Matter*

1. Claims 5-9 (renumbered 1-5) are allowed. The examiner's statement of reasons for allowance has been previously set forth in the Non-Final Rejection mailed on January 16, 2004 (Paragraphs 6, 8, and 9). In particular, while the tire structure of Matsuyama satisfies the quantitative limitations of the claimed invention (junction radius, carcass radius, tread radius, and bead seat radius), Matsuyama is directed to a tire construction for off-road construction vehicles that provides improved side cut resistance- one of ordinary skill in the art at the time of the invention would not have found it obvious to form the tire of Matsuyama as a highway vehicle tire. It is emphasized that tire of Matsuyama is specifically designed to overcome the problems commonly associated with off-road tire constructions, wherein said problems are different than those associated with additional tire constructions, such as highway vehicle tires.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
